

Michigan Botanical Club-SW Chapter

2021 Dues

Goals

1. Conservation of native plant life.
2. Education of the public to appreciate and conserve plant life.
3. Legislation, encouragement and support for preservation of plants and natural areas.
4. Research, to better understand plant life.
5. Cooperation in programs concerned with the wise use and conservations of all natural resources.

Activities

1. Monthly meetings October and November, with programs on timely topics concerning plants and conservation of all-natural resources. (January, February, and March cancelled due to Covid-19)
2. Field Trips April through September.
3. Annual Weekend Foray with other chapters throughout the state.
4. Bulletins to keep you informed about chapter programs and development. If you do not have an e-mail address; mailings are sent periodically to keep you up-to-date.
5. Fall state meeting featuring a distinguished speaker and Mini-Foray.
